

***New Products for 2008....***

**IP  
 Addressable  
 Parking Lot  
 Cameras  
 (TCP/IP)**

Video Security Group has developed a new line of IP Addressable, Outdoor parking lot cameras. The cameras are professional, high resolution, color cameras. They are extremely attractive, and blend in with the appearance of the building.

They come in either a fixed camera (stationary) model, or a professional, casino style High-Speed Dome that can scan 360 degree.

They are accessible by using a LAN or the Internet, and feature Remote view, Remote playback, and Remote Download.
